

NEWS RELEASE

Non-Executive Director/ PDMR dealing

08 April 2021: Ncondezi Energy Limited ("Ncondezi" or the "Company") (AIM: NCCL) announces that it has been notified that on 06 April 2021, Scott Fletcher, Non-Executive Director, purchased an aggregate of 10,000,000 ordinary shares of no par value ("Ordinary Shares").

The Company has also been made aware that the historic disclosure of Scott Fletcher's interest in Ncondezi shares has been understated by 50,000 shares as a result of an administrative error. Consequently, following the purchase announced today Mr Fletcher will be beneficially interested in a total of 73,489,687 Ordinary Shares, representing 19.824 per cent. of the Company's issued share capital.

About Ncondezi Energy

Ncondezi is an African power development company with an advanced staged, integrated 300MW thermal coal power plant and mine project located in the Tete Province, Northern Mozambique.

The Company is focused on providing reliable, affordable and accessible baseload energy to Mozambique and secure against the effects of water drought and intermittency of new renewables. This project supports Mozambique's energy strategy of universal electricity access by 2030. According to the World Bank, only 30% of the Mozambican population had access to energy in 2017. The Ncondezi Project would provide 300MW of

reliable and available power helping to close the infrastructure gap of the region and serving as a catalyst for economic development.

The power plant will be designed to be equipped with state-of-the-art emissions controls technologies that will reduce local air pollutants, minimizing the plant's impact on the environment and ensuring its compliance with the most stringent emission standards

In 2019, the Company entered into the Commercial and Industrial ("C&I") renewable and battery storage sector and in October 2019 announced its first investment in an off grid solar battery project. The Company has also secured the right to fund a US\$5.5m C&I project development pipeline in Mozambique through a Relationship Agreement with a C&I developer. The move into the C&I solar and battery storage sector offers a significant opportunity for the Company to complement the existing large-scale baseload power project and access near-term low-risk annuity income streams which have significant growth potential.
